Trace Mineral Premix

Zinc, Manganese, Iron, Copper, Iodine &
with Organic Selenium and Chromium

**WITH
ORGANIC
SELENIUM AND
CHROMIUM TO
PREVENT
OXIDATIVE STRESS**

Why SUNEX trace mineral premix?

Contains all the Trace Minerals Zinc, Manganese, Iron, Copper, Iodine, Selenium and Chromium.

Contains organic selenium and chromium to prevent oxidative stress.

- Right forms of Trace minerals are used for better bio availability and product stability.
- Right proportion and ratios, for example an ideal ratio between Zinc and copper is maintained.
- Requirements of different breeds of layers, broilers and breeders are considered.
- Best Active ingredients, sourced from the best manufacturers directly.
- Good manufacturing practices, so that batch to batch same standards are maintained.
- Best Physical form, mixes very well with other feed ingredients and not destroyed while manufacturing feed.
- Right and effective dosage form: 1 kg per MT of feed
For customized formulations and technical consultations write to: info@sunexformulation.com

Add 1 kg of
Sunex Trace Mineral to 1 MT of feed.

Packing: 25 kg

Best for 24 months from date of manufacturing.
